SMART SOLUTIONS FOR GLOBAL WINDOW SYSTEM.

Designed and made in Italy 4.0

La convinzione che gli accessori rivestano un ruolo essenziale nelle performance dei serramenti è oggi più che mai condivisa sia dal mondo delle costruzioni che dal mondo della progettazione e del design.

Dal 1986 il Gruppo Master progetta e realizza accessori e componentistica per serramenti in alluminio, con un processo fatto di ricerca, investimenti, studio della cultura dell'alluminio e riservando una profonda attenzione alla qualità dei materiali, alla ricerca di tecnologie in grado di permettere la produzione di prodotti fabbricati per alte performances, all'individuazione delle nuove esigenze dei mercati e alla soddisfazione e cura continua del cliente.

Presente in oltre 58 paesi del Mondo, oggi il brand Master è un marchio globale, focalizzato su: sviluppo di nuovi mercati internazionali, attenzione alla sicurezza e qualità dei propri prodotti, miglioramento continuo e riduzione degli sprechi in linea con i principi del lean manufacturing, implementazione del nuovo modello di automazione industriale INDUSTRY 4.0 con un'attenzione particolare a mantenere la centralità del capitale umano nelle operations strategiche e produttive

The belief that accessories have a key role in the performance of windows and doors today more than ever is shared by both the construction industry and the world of architecture and design.

Master Group has been designing and manufacturing accessories and components for aluminium frames since 1986, concentrating on research and investment, as well as on the study of aluminium, especially on the quality of materials, looking for technologies for high performance products, identifying new market needs and guaranteeing continuous customer satisfaction and care.

Present in over 58 countries worldwide, today Master is a global brand focused on developing new international markets, with the utmost attention to safety and quality of its products, continuous improvement and reduction of waste in line with the principles of lean manufacturing, and on the implementation of the new INDUSTRY 4.0 automation, with particular attention to maintaining human capital centre stage in production operations.

thinking. Master Italy
Process System*

La ricerca in Master Italy, si concentra all'interno del Centro Ricerche & Sviluppo con laboratorio prove MasterLAB, dal 2008 è impegnata sul fronte dell'innovazione, dell'evoluzione normativa riguardante i serramenti e a quella sempre più rapida dei mercati.

MasterLAB è dotata dei più moderni strumenti software, metodologici e sperimentali, per fare attività:

DI RICERCA, STUDIO E PROGETTAZIONE:

- Ideazione di nuovi prodotti e miglioramento di quelli esistenti;
- Prototipazione e industrializzazione del prodotto finito con metodi di sviluppo concettuale tridimensionale, verifica numerica agli elementi finiti e validazione sperimentale del concept in laboratorio;

SPERIMENTALI E DI SVILUPPO:

- Misurazione delle performances dei prodotti con prove di permeabilità all'aria, tenuta all'acqua, resistenza al vento e durabilità;
- Caratterizzazione meccanica dei materiali;
- Certificazione di prodotti in collaborazione con laboratori notificati nazionali ed internazionali;
- Servizi di 'witness testing' e ITT (Initial Test Type) offerti ai produttori di serramenti per misurare le prestazioni energetiche e di sicurezza ai fini della marcatura CE (attività svolta in collaborazione con enti certificatori nazionali e internazionali);

DI ASSISTENZA AL CLIENTE:

- Consulenza sulla personalizzazione di nuovi prodotti;
- Studio e progettazione all'adattabilità di componenti su sistemi esistenti e valutazione delle conseguenti prestazioni del prodotto finito.

MasterLAB già in possesso di 71 brevetti/modelli di utilità nazionali e internazionali, molti dei quali depositati a livello internazionale, offre i propri servizi ponendo una costante attenzione su tutti gli aspetti legati alle attività di ricerca e sviluppo operando nel settore della progettazione, sviluppo e sperimentazione di accessori/componenti per sistemi di apertura e chiusura per porte e finestre.

Our research studies are carried out by MasterLAB, which has been working on innovation since 2008, as well as on the evolution of legislation regarding doors and windows and on the increasingly growing market.

MasterLAB is equipped with the state-of-the-art software, and with methodological and experimental tools for:

RESEARCH, DEVELOPMENT AND DESIGN:

- *Design of new products and improvement of existing ones;*
- *Prototyping and industrialization of the finished product with three-dimensional conceptual development methods, numerical verification of the finished products and in-lab experimental validation of the concept;*

EXPERIMENTATION AND DEVELOPMENT:

- *Assessment of product performances with tests on air permeability, water tightness, wind resistance and durability;*
- *Mechanical customisation of materials;*
- *Certification of products in collaboration with national and international accredited labs;*
- *'Witness testing' and ITT services (Initial Test Type) offered to window manufacturers to measure energy and safety performances for CE marking (carried out in collaboration with national and international certification agencies);*

CUSTOMER SERVICE:

- *Advice on the customisation of new products;*
- *Study and design of the adaptability of components on existing systems and evaluation of the resulting performance of the finished product.*

MasterLAB has already 71 national and international patents/utility models, many of which are internationally registered. We offer our services by constantly focusing on all aspects related to research and development, operating in the field of design, development and testing of accessories/components for opening and closing systems for doors and windows.

WE think,
create,
innovate,
inspire.

FOR A SUSTAINABLE WORLD.

“Le imprese leader sono giudicate non solo per la qualità intrinseca dei prodotti e servizi offerti, ma anche in virtù del senso di responsabilità e delle relazioni col territorio e con l’ambiente che dimostrano. L’impegno che oggi dimostriamo vuole muoversi soprattutto in questa direzione”.

“Leading companies are assessed not only on the quality of their products and services, but also on the sense of responsibility and on their relationship with the territory and the environment. Our commitment is to go beyond all this”

Avviare un’attività di analisi della filiera produttiva e ridurre l’impatto ambientale dei prodotti nel settore degli accessori per serramenti. Il progetto è finalizzato alla valutazione dell’impatto sul clima, lungo il ciclo di vita dei più rappresentativi prodotti dell’azienda, per calcolare la ‘carbon footprint’ degli stessi, cioè l’ammontare totale dei gas a effetto serra emessi, con l’obiettivo di ridurlo mediante azioni pianificate a breve/medio termine. Tale studio è stato redatto con l’obiettivo di calcolare la GWP100 di ogni singolo componente. L’azienda ha ritenuto che la rilevazione degli impatti ambientali sia una necessità, a testimonianza del proprio impegno per lo sviluppo sostenibile del business a lungo termine. La misurazione di consumi e impatti, che consente di agire e migliorare continuamente i propri prodotti e processi, non solo dal punto di vista tecnologico ma anche ambientale, è dunque un’assunzione di responsabilità nei confronti di tutti gli stakeholders.

Carrying out analysis of the production chain and reduce the environmental impact of products in the field of window and door fittings. The project is aimed at assessing the impact on the climate, along the life cycle of our most representative products, to calculate their carbon footprint, i.e. the total amount of greenhouse gases emitted, with the objective to reduce it through planned actions in the short/medium term. This study was drafted with the aim of calculating the GWP100 of each individual component. We believe that the detection of environmental impacts is a paramount, which reflects our commitment to a sustainable development of long-term production. The measurement of consumption and im-

acts, which allows us to continuously improve our products and processes, not only from the technological point of view but also the environmental one, is therefore a responsibility towards all stakeholders.

A NEW COMPANY THINKING.

MIPS: MASTER ITALY PROCESS SYSTEM

Dal 2013 Master ha deciso di intraprendere un programma di miglioramento continuo con lo scopo di garantire la soddisfazione del cliente e gestire la crescente complessità aziendale.

Le logiche alla base del programma di miglioramento Master sono quelle del **lean thinking**, ovvero, la lotta allo spreco attraverso la semplificazione dei processi, il coinvolgimento del personale e la spinta verso la creazione di flussi sincroni di processo.

A supporto delle attività c'è l'adozione di tecnologie abilitanti, ovvero automazioni, macchine e sistemi integrati, che permettono il mantenimento delle corrette condizioni di lavoro e l'analisi delle prestazioni in real time.

In questo modo si pongono le basi per iniziative di miglioramento sempre più sfidanti.

Nel 2018, dopo 5 anni di implementazione delle logiche lean, l'azienda ha capitalizzato le esperienze realizzate elaborando il **Master Italy Process System**, ovvero una raccolta dinamica delle tecniche ed i metodi lean da utilizzare nei vari ambiti operativi, degli strumenti di sviluppo delle risorse umane e delle best practies a cui ispirarsi per i nuovi progetti. Gli ambiti all'interno del quale si spazia, sono **la sicurezza e l'ambiente, il miglioramento e l'innovazione continua, la digital trasfomation e lo sviluppo delle competenze.**

In 2013, Gruppo Master decided to implement a continuous improvement programme with the objective of guaranteeing customer satisfaction and managing the company's increasing complexity.

*The Master improvement programme is based on the **lean thinking** methodology, which aims to eliminate waste by simplifying processes, getting people involved and pushing for the creation of synchronised process flows.*

Activities are supported by enabling technologies: automation, integrated machines and systems that allow to maintain the right work conditions and analyse performances in real time.

This is the basis to start increasingly challenging improvement initiatives.

*In 2018, five years after implementing the lean thinking methodology, the company has capitalised on the experience and has created the **Master Italy Process System**, a dynamic collection of the techniques and methods to be used in different operative environments: human resource development tools and best practices to inspire new projects. Its scope includes **security and the environment, continuous improvement and innovation, digital transformation and skill development.***

I NOSTRI VALORI, IL NOSTRO DNA D'IMPRESA.

OUR VALUES, OUR ENTREPRENEURIAL DNA.

VALORIZZAZIONE E RISPETTO DELLE PERSONE OUR VALUES, OUR ENTREPRENEURIAL DNA.

L'azienda è formata da persone diverse fra loro e queste differenze sono il valore aggiunto che porta un vantaggio a tutto il gruppo. Per questo bisogna valorizzare il talento del singolo in modo da raggiungere il traguardo di tutti.

The company is made up of different people and these differences are an added value to the whole group. This is why we need to enhance the talent of the individual in order to reach the goal of all.

INNOVAZIONE E MIGLIORAMENTO CONTINUO INNOVATION AND CONTINUOUS IMPROVEMENT

Ci vuole coraggio per essere in anticipo sui tempi. Non dobbiamo aver paura del cambiamento. Innovazione è quando guardi con occhi diversi la realtà che ad altre persone appare uguale. Miglioramento continuo è un processo che si sviluppa a piccoli passi con effetti a medio-lungo termine che produce cambiamenti graduali e continui.

It takes a lot of courage to be ahead of our time. We must not be afraid of change. Innovation means looking at things with a different perspective from how other people regard things, sometimes as being unchangeable. Continuous improvement is a process that develops through small steps with medium to long-term effects, producing gradual and continuous changes.

QUALITÀ PER LA SODDISFAZIONE DEL CLIENTE QUALITY FOR CUSTOMER SATISFACTION

Le organizzazioni esistono perché vi sono clienti che hanno esigenze ed il loro successo dipende dalla capacità di soddisfarle. La soddisfazione dei clienti dipende a sua volta dalla qualità dei prodotti / servizi forniti.

Businesses exist because there are customers who have needs, and their success depends on the ability to satisfy those needs. Customer satisfaction depends on the quality of the products/services provided.

COLLABORAZIONE ED ENTUSIASMO COOPERATION AND ENTHUSIASM

Collaborazione, passione ed entusiasmo sono il motore del nostro lavoro. Grazie alla collaborazione e all'entusiasmo nascono le idee più innovative. In gruppo si raggiungono vette che da solo non potresti mai raggiungere. È la passione che ci guida, trasmettiamola!

Collaboration, passion and enthusiasm are the engine that propels our work. Thanks to collaboration and enthusiasm, the most innovative ideas are born. A group you can reach objectives that you could never reach alone. It is passion that drives us, let's transmit it!

ETICA E CRESCITA SOSTENIBILE ETHIC AND SUSTAINABLE GROWTH

Lo scopo dell'impresa non deve essere semplicemente la produzione del profitto bensì l'esistenza stessa dell'impresa come comunità di uomini che, in modo diverso, perseguono gli stessi obiettivi. Ogni persona coinvolta nell'impresa ha una responsabilità morale. Attenzione al presente per una sostenibilità futura.

Our objective is not only to produce for profit but also to make our enterprise a community of people who, in different ways, pursue our same goals. Every person involved has a moral responsibility. Attention to the present for future sustainability.

LE CERTIFICAZIONI

THE CERTIFICATIONS

ISO 9001

Il miglioramento continuo come requisito del Sistema Azienda, il sostanziale riferimento ai clienti e alla loro soddisfazione, le risorse umane e la loro specializzazione certificano Master ISO 9001. Questa certificazione valorizza lo sforzo compiuto da sempre per assicurare qualità ai prodotti ed ai servizi, sempre nell'obiettivo di soddisfare al meglio le esigenze della clientela.

Continuous improvement required by the Company Quality Management System, utmost attention to customers, to their complete satisfaction, to our human resources and to their specialization all contribute to the company's ISO 9001 certification, which highlights our consistent effort to guarantee quality products and services with the aim of best responding to our customers' needs

ISO 14001

Master inoltre persegue una crescita ecosostenibile, integrando i principi di gestione ambientale nello sviluppo dei prodotti e nella gestione dei processi. Per questo ha avviato un sistema di gestione ambientale conforme alla ISO 14001, norma internazionale di carattere volontario.

Master also pursues an environmentally sustainable growth, integrating the best principles of environmental management into our product development and process management. Accordingly, it has launched an Environmental Management System in compliance with the voluntary international standards of ISO 14001.

LIFE CYCLE ASSESSMENT

Master ha adottato il Life Cycle Assessment (LCA) metodo che valuta l'insieme di interazioni che un prodotto ha con l'ambiente, considerandone il suo intero ciclo di vita che include: le fasi di pre-produzione (quindi anche estrazione e produzione dei materiali), produzione, distribuzione, uso (quindi anche riuso e manutenzione), riciclaggio e dismissione finale. La procedura LCA è standardizzata a livello internazionale dalle norme ISO 14040 e 14044.

Master has adopted the Life Cycle Assessment (LCA) method, which evaluates the set of interactions that a product has with the environment, considering its entire lifecycle. This concerns all the phases of pre-production (i.e. the extraction and production of materials), manufacturing, distribution, use (inc. reuse and maintenance), recycling and final disposal. This LCA procedure is internationally standardized by ISO 14040 and 14044.

GBC

Non esiste un protocollo LEED ma una serie di protocolli accomunati da uno schema concettuale comune, diversificati in funzione della tipologia di edificio. È un sistema nato in America e di diffusione internazionale. Il processo di certificazione prevede la presenza di un ente terzo, il Green Building Certification Institute (GBCI), quale ente certificatore super partes rispetto all'Ente normatore, il Green Building Council (GBC), e al gruppo progettazione/realizzazione. I prodotti della linea WEEN di Master contribuiscono al rilascio dei crediti per lo standard LEED®.

There isn't a LEED protocol but a set of protocols sharing a common conceptual framework, diversified depending on the type of building. It is a system born in America and spread internationally.

The certification process requires the presence of a third party, the Green Building Certification Institute (GBCI) as a certification authority super partes respect to Institute giving norms, the Green Building Council (GBC), and the design / realization group. The products of WEEN line Ween contributes to achieve LEED® credits standards.

AEO

La certificazione AEO vale in tutto il territorio doganale comunitario. Tale autorizzazione attribuisce all'azienda una "patente" di affidabilità e di solvibilità a cui sono collegati una serie di vantaggi: meno controlli fisici e scanner, minore burocrazia con conseguente riduzione dei costi doganali, sdoganamento telematico e centralizzato in tutta l'Unione Europea. I nostri clienti in questo modo vedranno ridotti se non azzerati i tempi di attesa in dogana.

AEO certification is valid throughout the Community customs territory. This authorization gives the company a "license" of reliability and solvency with many advantages: fewer physical inspections and scanners, less bureaucracy with a consequent reduction in customs costs, electronic and centralized customs clearance throughout the European Union. Our customers who will see reduced and quite eliminated the waiting time at customs.

FINESTRE DI SUCCESSO

WINDOWS OF SUCCESS

**FINESTRE
DI SUCCESSO**
storie di eccellenza italiana

“Finestre di successo” è la rubrica di masteritaly.com dedicata all'eccellenza dell'industria italiana dei serramenti. In questa sezione si riportano ogni mese i casi di successo e le migliori realizzazioni effettuate dai produttori italiani di serramenti che utilizzano gli accessori Master, con l'intento di dare la giusta visibilità a coloro che da sempre hanno fatto della qualità e della professionalità i valori fondanti del proprio lavoro.

“Saper fare bene le cose per il proprio piacere: una regola di vita semplice e rigorosa che ha consentito lo sviluppo di tecniche raffinatissime e la nascita della conoscenza scientifica moderna. Perché chi sa governare se stesso e dosare autonomia e rispetto delle regole, non solo saprà costruire una meravigliosa facciata, un orologio dal meccanismo perfetto o un ponte capace di sfidare i millenni, ma sarà anche un cittadino giusto”.

“Windows of Success” is the column on masteritaly.com dedicated to the excellence of the Italian window and door industry. Every month, in this column, we talk about success stories and the best achievements reached by Italian window and door manufacturers who use Master accessories, with the intent to give the right visibility to those who have always made quality and professionalism. Knowing how to do things well for your own pleasure: a rule of life. The core values of their work.

“Being able to do things well for your own pleasure: a rule of a simple and rigorous life that has allowed for developing refined techniques and giving rise to modern scientific knowledge because those who know how to govern themselves and dose autonomy, while respecting rules, not only will build a wonderful facade, a watch with a perfect mechanism, or a bridge capable of challenging millennia, but will also be a righteous citizen”.

WINDOWS OF THE WORLD

La comunità italiana "Finestre di Successo" è cresciuta nel tempo diventando "Windows of the World", un'estensione internazionale che raccoglie i progetti più ambiziosi realizzati con accessori Master in oltre 50 paesi. Un viaggio esplorativo tra i cantieri più importanti e le partnership più prestigiose che hanno permesso all'azienda Master di contribuire, nel corso degli anni, alla creazione di opere di importanza mondiale.

The Italian community "Finestre di Successo" grows and becomes "Windows of the World", an extension that is required to enable the most ambitious projects realized with Master accessories in over 50 countries. An exploratory trip between the most ambitious building sites and the more interesting partnerships that have enabled Master company to contribute, over the years, to the creation of works of world importance.

Per tutte le informazioni sulla corretta manutenzione e conservazione dei trattamenti superficiali fare riferimento al paragrafo 5.1 delle LINEE GUIDA SU GARANZIA PRODOTTI E RESPONSABILITÀ.

NOTE TECNICHE:

- Si consiglia di non utilizzare accessori in acciaio zincato, in finitura K-Finish oppure verniciati nei pressi di ambienti particolarmente aggressivi come ad esempio zone vicino al mare e simili.
- Si consiglia di non utilizzare le finiture K-Finish su accessori per infissi ad apertura esterna o comunque posizionati all'esterno.
- La pulizia degli accessori deve essere effettuata esclusivamente con detergenti a base neutra al fine di non comprometterne il rivestimento superficiale.
- I particolari in acciaio inox sono in AISI 430F, salvo diversa indicazione.
- Le confezioni delle cerniere sono da 50 pezzi, escluso le versioni in FINITURE SPECIALI e TEK che sono da 25 pezzi.
- Le confezioni delle cremonesi e delle martelline sono da 20 pezzi, ad esclusione delle versioni in FINITURE SPECIALI, PVD e TEK che sono da 5 pezzi.

For all information on the correct maintenance and conservation of surface treatments, refer to paragraph 5.1 of the **GUIDE LINES ON PRODUCT GUARANTEES AND RESPONSIBILITIES**

TECHNICAL NOTES:

- We recommend that you do not use galvanized steel accessories, K-Finish finish or painted near particularly aggressive environments such as areas near the sea and the like.
- It is advisable not to use the K-Finish finishes on accessories for windows with external opening or in any case placed outside.
- The cleaning of the accessories must be carried out exclusively with neutral-based detergents in order not to compromise the surface coating.
- The stainless steel parts are in AISI 430F, unless otherwise indicated.
- The packs of the hinges are 50 pieces, excluding the versions in SPECIAL FINISHES and TEK that are 25 pieces.
- Cremonese and hammerware packs are 20 pieces, with the exception of the versions in SPECIAL FINISHES, PVD and TEK which are 5 pieces.
- The packages of the double handles are from 15 pairs, with the exception of the versions in SPECIAL FINISHES, and TEK that are from 5 pairs.
- The LINEA ITALIA double handles are made of 5 pairs, with the exception of the PVD and TEK versions that come from 2 pairs.

1 CLAUSOLA GENERALE

La vendita dei prodotti di Master Italy Srl (di seguito “Prodotti”) è regolata dalle seguenti Condizioni Generali di Vendita (di seguito “CGV”) che con l’emissione dell’ordine da parte del Cliente si intendono automaticamente accettate e costituiscono parte integrante del rapporto contrattuale tra Master Italy Srl (di seguito “MASTER”) ed il Cliente. Qualsiasi modifica, aggiunta o deroga è valida soltanto nel caso in cui sia stata accettata per iscritto da MASTER.

2 CONCLUSIONE DEL CONTRATTO, CONSEGNA E PASSAGGIO DEL RISCHIO

Gli ordini di acquisto devono essere trasmessi per iscritto. La vendita si intende conclusa nel momento in cui MASTER abbia confermato per iscritto l’ordine pervenuto dal Cliente. Il termine di consegna è calcolato in giorni lavorativi e decorre dalla data di accettazione dell’ordine da parte di MASTER, sempreché siano pervenuti a MASTER tutti i dati occorrenti per la corretta esecuzione della vendita. I termini per le consegne e il conseguente passaggio del rischio sono quelli indicati nella conferma d’ordine o fissati da diversa pattuizione scritta tra le Parti, fatto salvo eventuali ritardi dovuti a cause di forza maggiore. Nessun ritardo può costituire motivo per la richiesta di annullamento dell’ordine o di risarcimento di danni o di mancati utili, né la merce può essere rifiutata per tale causa. Per ordini di valore inferiore a 1.000 Euro (IVA esclusa) i costi di trasporto saranno sempre a carico del Cliente. MASTER si riserva il diritto di evadere l’ordine anche attraverso consegne parziali, salvo espressa diversa pattuizione tra le parti.

3 PREZZO E PAGAMENTI

Il prezzo dei Prodotti riportato in Listino è espresso in Euro, IVA esclusa e si riferisce ad un numero di pezzi non inferiore alla confezione. Il prezzo dei Prodotti è da intendersi franco fabbrica (Ex-Works Incoterms 2010) presso i magazzini di MASTER. Restano esclusi i costi per imposte, bolli, dogana, porto e qualsiasi altro diritto. I Pagamenti dovranno essere effettuati presso il domicilio fiscale della MASTER. Trascorsi i termini di pagamento indicati in conferma d’ordine, sugli importi dovuti matureranno interessi di mora calcolati sulla base di quanto previsto dal D.Lgs. n. 231/2002 e s.m.i.termini di consegna si intendono indicativi e non vincolanti.

1) GENERAL CLAUSE

The sale of Master Italy Srl products (hereafter “Products”) is governed by the following General Conditions of Sale (hereafter “CGV”) which, on the issuing of an order by a Client, are considered as automatically accepted, and make up an integral part of the contractual relationship between Master Italy Srl (hereafter “Master”) and the Client. Any modification, supplement or waiver is only valid in the event it has been accepted in writing by MASTER.

2 CLOSURE OF THE CONTRACT, CONSIGNMENT AND TRANSFER OF RISK

The purchase orders must be forwarded in writing. The sale is considered as agreed at the time in which MASTER has confirmed the order received from the Client in writing. The consignment time is calculated in working days and runs from the date of acceptance of the order by MASTER, on condition that all the required data for the correct execution of the sale has been received by MASTER. The consignment times and consignment of the passage of risk are those indicated in the order confirmation or fixed by alternative written agreement between the parties, with the exception of delays caused by matters of force majeure. No delay may be accepted as a reason to annul the order or as a reason for damages compensation, or of missed profits, nor may the goods be refused for such a reason. For orders with a value of less than 1,000 Euro (Ex VAT), the cost of transport shall always be at the expense of the Client. MASTER reserves the right to handle the order even through partial consignments, unless expressly agreed otherwise between the parties.

3 PRICE AND PAYMENTS

The price of products contained in the price list is expressed in Euros, Ex VAT, and refer to a number of items of no less than the contents of the package. The price of products is to be considered as ex works (Incoterms 2010) at the MASTER warehouses. Costs for taxes, stamp duty, customs, port and any other costs are excluded. Payments must be made to the MASTER company address. The payment terms indicated on the order confirmation having expired, interest will be due on the sums owing, calculated on the basis of that set out in Legislative Decree No 231/2002 as subsequently amended. The consignment terms are intended as indicative and are not binding.

4 RECLAMI E DIFETTOSITÀ PRODOTTI

Qualora al ricevimento dei Prodotti, il Cliente verifichi la non conformità, eventuali reclami per vizi e difetti apparenti e non dei Prodotti dovranno essere proposti per iscritto dal Cliente entro 8 (otto) giorni dalla scoperta dei vizi ed i particolari difettosi dovranno essere resi a MASTER, unitamente alla prova di acquisto (fattura e bolla di vendita). MASTER, a seguito della segnalazione ricevuta, si riserva di effettuare una propria valutazione sulla base dei campioni forniti ed ove necessario di sopralluogo. Qualora ne venga accertata la difettosità, gli eventuali pezzi riconosciuti difettosi saranno sostituiti a cura e spese di MASTER. Nessun agente e/o distributore e/o ogni altro intermediario di MASTER è autorizzato ad offrire garanzie ulteriori rispetto a quelle contenute nelle presenti CGV. In ogni caso la responsabilità di MASTER e dei suoi agenti e/o distributori e/o ogni altro intermediario, è limitata all'importo massimo del prezzo di vendita del Prodotto. Restano escluse le spese relative alle operazioni di rimozione e/o sostituzione del prodotto oggetto di un eventuale segnalazione.

5 VARIE

MASTER si riserva il diritto di variare senza alcun preavviso le caratteristiche degli articoli presenti in catalogo, allo scopo di adeguarli ad esigenze di natura tecnica e/o commerciale. L'eventuale utilizzo nel Catalogo e nel Listino di marchi e/o segni distintivi di proprietà di terzi risponde allo scopo di indicare la destinazione dei Prodotti in conformità con quanto previsto dall'art 21 comma 1 D.Lgs. 30/2005.

6 LEGGE APPLICABILE E FORO COMPETENTE

Salvo diversa pattuizione scritta tra le parti, la vendita tra MASTER ed il Cliente è regolata dalla Legge Italiana e la risoluzione di ogni controversia sarà devoluta in via esclusiva al Foro di Bari.

4 COMPLAINTS AND PRODUCT DEFECTS

Should Clients note a non-conformity on receipt of Products, any complaint for faults or defects of Products, be they manifest or not, must be submitted in writing by the Client within 8 (eight) days of discovery of the faults, and the details of the defects must be submitted to MASTER, together with the proof of purchase (invoice and bill of sale). MASTER, following receipt of the notification, reserves the right to carry out an evaluation on the basis of samples supplied and, where necessary, with a site visit. On confirmation of the defect, any items recognized as defective will be substituted at the expense of MASTER. No agent and/or distributor and/or any other MASTER intermediary is authorized to offer guarantees exceeding those contained in this CGV. In any case, the responsibility of MASTER and its agents and/or distributors and/or any other intermediary, is limited to the maximum retail price of the Product. Expenses relating to operations of removal and/or substitution of the product subject to the notification are excluded.

5 VARIOUS

MASTER reserves the right to vary the characteristics of those articles contained in the catalogue without warning, with the aim of adapting them to technical and/or commercial requirements. Any use within the Catalogue of trademarks and/or distinctive signs which are the property of third parties, is exclusively for the aim of indicating the function of Products in conformity with the provisions of article 21, paragraph 1, of Legislative Decree 30/2005.

6 APPLICABLE LAWS AND COMPETENT COURT

Unless agreed otherwise in writing between the parties, the sale between MASTER and the Client is governed by Italian law and the resolution of any dispute will devolved exclusively to the Court of Bari.

LINEE GUIDA SU GARANZIA PRODOTTI E RESPONSABILITÀ

1/1

GUIDE LINES ON PRODUCT GUARANTEES AND RESPONSIBILITIES

Tutti i Prodotti sono garantiti nei termini di legge per difetti relativi a materiali e lavorazioni.

MASTER garantisce che i Prodotti sono di elevata qualità, privi di difetti nei materiali e nella lavorazione e corrispondono alle specifiche tecniche indicate.

I Prodotti sono coperti da garanzia a condizione che risultino applicati ed installati in osservanza alle prescrizioni tecniche per l'uso dei prodotti riportate nel presente Catalogo/listino, nelle istruzioni contenute nella confezione, sul sito web aziendale www.masteritaly.com e comunque richiedibili al Customer Service Tecnico Master all'indirizzo email infotech@masteritaly.com ed al numero di telefono +39 080 4959823. La Garanzia non sarà applicabile in caso di manomissione di qualsiasi natura sui Prodotti. Tutti i prodotti Master devono essere montati e/o installati da personale competente e qualificato che svolga attività professionale nel settore dei serramenti. Non è previsto un uso dei Prodotti diverso da quello per cui tali Prodotti sono stati progettati e fabbricati. MASTER è, quindi, sollevata da ogni e qualsiasi responsabilità a qualsiasi titolo, derivante dall'utilizzo improprio dei Prodotti.

All the products are guaranteed within the meaning of the law for defects relating to materials and processing. MASTER guarantees that the Products are of high quality, devoid of defects of materials and processing and correspond to the indicated technical specifications. The products are covered by the guarantee on the condition that they are applied and installed in compliance with the technical prescriptions for use of the products contained in this Catalogue/Price List, with the instructions contained in the packaging, on the company website www.masteritaly.com and in any case obtainable from the Master Technical Customer Services Department at email address infotech@masteritaly.com and telephone number +39 080 4959823. The guarantee will not be applicable in the event of tampering of any nature on the products. All Master products must be assembled and/or installed by competent and qualified personnel carrying out professional activities in the door and window fitting sector. The use of Products differing from those for which the said Products have been designed and made is not permitted. MASTER is, therefore, indemnified from any responsibility of any kind, deriving from improper use of the Products.

1. INFORMAZIONI SUI PRODOTTI E APPLICAZIONE PREVISTA

1.1 ACCESSORI PER APERTURE BATTENTE INTERNA, BATTENTE ESTERNA, ANTA RIBALTA, VASISTAS E SPORGERE

1. INFORMATION ON PRODUCTS AND DESIGNED APPLICATIONS

1.1 ACCESSORIES FOR OPENING INTERNAL PANELS, EXTERNAL PANELS, TILT AND TURN WINDOWS, OPENING AND PROTRUDING WINDOW PANES

Definizione: Definizione: gli accessori MASTER per apertura battente e anta ribalta consentono l'apertura di finestre e porte sia verso l'interno che verso l'esterno. Questi accessori sono generalmente operati per mezzo di una leva a mano (maniglia), al fine di garantire l'apertura o l'inclinazione limitata (ribalta, sporgere) di finestre e porte balcone.

Applicazione: gli accessori MASTER per aperture battente interna, battente esterna, anta ribalta, vasistas e sporgere sono utilizzati prevalentemente su finestre e porte in alluminio. Nello specifico il meccanismo anta ribalta secondo questa definizione, serve a bloccare le finestre e le porte balcone consentendo diverse posizioni di ventilazione.

Definition: MASTER accessories for opening panels and tilt and turn windows allow for opening windows and doors, both towards the indoors and the outside. These accessories are normally operated by a hand lever (handle), in order to guarantee a limited opening or inclination (tilt and turn, protruding) of balcony windows and doors.

Applications: MASTER accessories for opening internal panels, external panels, tilt and turn windows, opening and protruding window panes, are mainly used on aluminium windows and doors. Specifically, the tilt and turn mechanism according to this definition, is used to block balcony doors and windows, allowing for various ventilation positions.

LINEE GUIDA SU GARANZIA PRODOTTI E RESPONSABILITÀ

PRODUCT LIABILITY GUIDELINES

1/2

1.2 ACCESSORI PER APERTURE SCORREVOLI, ALZANTI SCORREVOLI, SCORREVOLI PARALLELI E VERANDA

1.2 ACCESSORIES FOR SLIDING OPENINGS, SLIDING WINDOWS, PARALLEL SLIDING AND VERANDAS

Definizione: Gli accessori MASTER per aperture scorrevoli consentono l'apertura di finestre e porte in modo scorrevole parallelamente al piano del serramento. Questi accessori sono generalmente operati per mezzo di una leva a mano (maniglia), al fine di garantire l'apertura e lo scorrimento di finestre e porte balcone.

Applicazione: gli accessori MASTER per scorrevoli sono utilizzati su finestre e porte finestre prevalentemente in alluminio. Gli accessori per scorrevole sono generalmente composti da un meccanismo di chiusura per fermare l'anta mobile, nonché da carrelli situati sul traverso orizzontale inferiore e/o superiore per garantire il movimento dell'anta.

Definition: MASTER accessories for sliding openings allow for opening windows and doors by sliding in parallel to the fixing level. These accessories are normally operated by a hand lever (handle), in order to guarantee opening and sliding of balcony windows and doors.

Application: MASTER sliding accessories are mainly used for aluminium windows and doors. The sliding accessories are normally made up of a closure mechanism for closing the moving panel, as well as two rollers situated on the lower and/or upper horizontal traverse for movement of the panel.

1.3 APPLICAZIONI DIFFORMI - ESCLUSIONE DI RESPONSABILITÀ

Tutte le situazioni diverse da 1.1 e/o 1.2 sono considerate come applicazioni non conformi ed escludono ogni responsabilità da parte della MASTER.

1.3 ERRONEOUS APPLICATIONS DECLINING OF RESPONSIBILITY

All situations differing from 1.1 and/or 1.2 are considered to be non-conforming applications for which MASTER declines all responsibility.

1.4 CONSIGLI RIGUARDANTI LE RESTRIZIONI DI UTILIZZO

Le porte e le finestre in posizione di apertura, nonché le porte balcone non bloccate o in posizione di ventilazione, forniscono solo una funzione di schermatura e non soddisfano alcuna esigenza di impermeabilità, tenuta all'acqua, isolamento acustico, isolamento termico e resistenza all'effrazione. Nel caso di vento e corrente d'aria, le finestre e le porte finestre devono essere chiuse e bloccate. In presenza di vento e corrente d'aria, se una finestra o una porta balcone si trova in una posizione di apertura potrebbe chiudersi in maniera incontrollata per effetto della pressione dell'aria o della corrente. Una posizione di apertura statica delle finestre e delle porte balcone può essere ottenuta solo tramite l'utilizzo di hardware aggiuntivo. La resistenza al vento in fase di chiusura dell'infisso dipende dal tipo di sistema delle finestre e delle porte balcone.

1.4 ADVICE REGARDING RESTRICTIONS OF USE

The doors and windows in the opening position, as well as unblocked balcony doors or those in positions of ventilation, furnish only one shielding function and do not satisfy any requirement for impermeability, water sealing, sound proofing, thermal insulation or resistance against break-ins. In the case of wind or draughts, the windows and doors may be closed and blocked. In the presence of air currents, if a balcony window or door is in an open position, it may slam shut in an uncontrolled manner due to the air pressure or current. A static opening position of balcony windows and doors may only be achieved through the use of additional hardware. Resistance against wind in the closure phase of the fitting depends on the type of system of the balcony windows and doors.

LINEE GUIDA SU GARANZIA PRODOTTI E RESPONSABILITÀ

PRODUCT LIABILITY GUIDELINES

1/3

1.5 PARTICOLARI ACCORGIMENTI NECESSARI PER ESIGENZE DIVERSE

Le finestre e le porte balcone anti-intrusione, le finestre e le porte balcone installate in ambienti umidi e in ambienti con agenti aggressivi e corrosivi, richiedono la ferramenta adeguata per il tipo di applicazione e le caratteristiche prestazionali adattate all'ambiente. A seconda della temperatura esterna, dell'umidità relativa dell'aria nell'ambiente, nonché della posizione di applicazione dell'elemento scorrevole, può verificarsi una formazione temporanea di condensa sul binario di alluminio all'interno. Ciò si verifica in particolarmente quando la circolazione dell'aria è ostacolata; Per esempio a causa della presenza di tende, o nel caso di un posizionamento sfavorevole del radiatore etc.

In generale, l'hardware definito ai punti 1.1 e/o 1.2 soddisfa i requisiti per le abitazioni prive di barriere architettoniche.

1.5 PARTICULAR EXPEDIENCIES NECESSARY FOR DIFFERENT REQUIREMENTS

Anti-intrusion balcony windows and doors, balcony windows and doors installed in humid environments and in environments with aggressive and corrosive agents, require suitable fittings for the type of application and the appropriate performance characteristics for those environments. Depending on the external temperature, relative humidity of air in the environment, as well as the applied position of the sliding element, temporary formations of condensation on the internal aluminium runners may be formed. This is experienced particularly when the circulation of air is obstructed. For example, due to the presence of curtains, or in the event of unfavourable positioning of radiators, etc.

Generally speaking, the hardware defined at points 1.1 and/or 1.2 satisfy the requirements for dwellings devoid of architectural barriers.

2. PRECAUZIONI D'USO

2. PRECAUTIONS FOR USE

L'abuso, quindi l'uso del prodotto non come specificato, si verifica per la ferramenta di finestre e porte balcone come descritto in 1.1 e/o 1.2 in particolare:

- se vi sono ostacoli sulla traiettoria di chiusura o apertura dell'anta che ne impediscono il libero movimento;
- se si aggiungono carichi alla struttura della finestra o della porta balcone;
- se le finestre e le porte balcone vengono lasciati liberi di muoversi in modo incontrollato (ad es. dal vento) in modo che gli accessori e/o il materiale del telaio e/o di altri componenti singoli siano danneggiati e/o distrutti causando danni consequenziali;
- se durante la chiusura (o scorrimento) una persona o parte di essa si interpone tra il telaio e l'anta durante le fasi di apertura e chiusura causando danni accidentali, potenziali infortuni o cadute.

Misuse or, in other words, use of the product not as specified, in regard to balcony door and window fittings as described in 1.1. and/or 1.2, would in particular be:

- *If there are obstacles to the opening and closing trajectory which impede free movement;*
- *if loads are added to the balcony window or door structure;*
- *if the balcony window or door is left free to move in an uncontrolled manner (e.g. by the wind) so that the accessories and/or frame materials and/or other individual components are damaged and/or destroyed, causing consequential damage;*
- *if, during closure (or sliding), a person or body part interposes between the frame and the panel during opening and closing phases, causing accidental damage, potential injury or falls.*

LINEE GUIDA SU GARANZIA PRODOTTI E RESPONSABILITÀ

PRODUCT LIABILITY GUIDELINES

1/4

3. RESPONSABILITÀ

Il sistema di ferramenta come descritto in 1.1 e/o 1.2 può essere costituito solo da componenti hardware MASTER. Nel caso di combinazioni non autorizzate dalla fabbrica MASTER e/o di accessori assemblati in modo inappropriato e/o dell'uso di accessori non originali e/o non approvati, l'azienda MASTER non si assume alcuna responsabilità.

In relazione alla responsabilità circa la resistenza alla corrosione si faccia riferimento all'apposita sezione.

4. PERFORMANCE DEL PRODOTTO - CONSIGLI DEL COSTRUTTORE SULL'APPLICAZIONE

4.1 PORTATE

Non è possibile eccedere le portate massime indicate per ciascun prodotto. La portata massima è determinata dalla componente costruttiva con minore capacità di carico.

Devono essere rispettati gli schemi di applicazione e la classificazione dei componenti, accertandosi di eventuali aggiornamenti sulle specifiche di prodotto divulgate dalla MASTER.

4.2 DIMENSIONI DELL'INFISSO

La descrizione degli schemi applicativi nella documentazione tecnica, nei cataloghi di prodotto o nelle istruzioni di montaggio indica la relazione tra le larghezze e le altezze a seconda del diverso peso e/o spessore del vetro. In nessun caso può essere superata la dimensione delle finestre e il rapporto larghezza/altezza o la portata massima dell'anta.

4.3 COMBINAZIONE HARDWARE

Le regole del costruttore che riguardano la combinazione degli accessori devono essere sempre rispettate (ad esempio, l'applicazione di bracci supplementari, i sistemi antieffrazione progettati per finestre e porte balcone, ecc.).

5. MANUTENZIONE DEL PRODOTTO

I componenti hardware per garantire la sicurezza devono essere sottoposti a manutenzione almeno una

3. RESPONSIBILITIES

The fixings system as described in 1.1 and/or 1.2 may only be made up of MASTER components. In the event of combinations not authorised by MASTER and/or of accessories assembled in an inappropriate manner and/or use of non-original and/or not approved accessories, the MASTER company declines all responsibility.

In relation to the responsibilities regarding resistance to corrosion, reference is made to the appropriate section.

4. PRODUCT PERFORMANCE MANUFACTURER'S APPLICATION ADVICE

4.1 LOADS

Exceeding the maximum loads indicated for each product is not permitted. The maximum load is determined by the construction component with the least load capacity.

The application outlines and component classification must be complied with, while keeping informed of any updates on the product specifications issued by MASTER.

4.2 DIMENSIONS OF THE CASING

The application outline descriptions contained in the technical documentation, in the product catalogues or in the assembly instructions indicate the relationship between the widths and heights according to the different weight and/or thickness of the glass. Under no circumstances may the window dimensions and the relationship between width/height, or the maximum load of the panel, be exceeded.

4.3 COMBINATION HARDWARE

The manufacturer's rules regarding the combination of accessories must always be complied with (for example, the application of supplementary arms, burglar proof systems designed for balcony windows and doors, etc.).

5. PRODUCT MAINTENANCE

To guarantee safety, the hardware components, must be the subject of maintenance at least once per year

LINEE GUIDA SU GARANZIA PRODOTTI E RESPONSABILITÀ

PRODUCT LIABILITY GUIDELINES

1/5

volta all'anno per verificare la stabilità e l'usura. A seconda delle esigenze, le viti di fissaggio devono essere strette e / o alcune parti devono essere regolate. Oltre a questo, le seguenti operazioni di manutenzione devono essere eseguite almeno una volta all'anno:

- Tutte le parti mobili e tutti i punti di bloccaggio dell'hardware devono essere lubrificati.
- Per la pulizia non usare detersivi aggressivi, alcool o altri prodotti chimici che possono corrodere la superficie e che possono danneggiare la protezione dalla corrosione dei componenti hardware.
- Il lavoro di regolazione dell'hardware, nonché l'eventuale sostituzione di alcune parti devono essere eseguite da un'azienda specializzata.
- Quando si effettuano operazioni di trattamento superficiale di finestre e porte finestre - ad esempio tinteggiatura o verniciatura - è necessario isolare da questo processo la ferramenta che deve essere protetta contro eventuali impurità (vernici/residui di verniciatura).

5.1 CONSERVAZIONE DELLA FINITURA SUPERFICIALE

I rivestimenti in zinco applicati elettroliticamente non vengono attaccati in una stanza con condizione climatiche normali, se non si forma condensa sull'hardware o se questa può asciugare rapidamente.

Al fine di preservare in modo permanente la qualità della superficie dell'hardware e per evitare il deterioramento da corrosione, è indispensabile osservare i seguenti punti:

- Le aree di fissaggio e / o di scorrimento devono essere sufficientemente ventilate in particolare durante la fase di costruzione in modo che non siano esposte a umidità diretta o condensa. In ogni caso, occorre adottare le misure necessarie per garantire che l'umidità non si condensi in modo permanente nelle aree di scorrimento.
- L'hardware deve essere mantenuto privo di depositi e sporcizia da materiali da costruzione (polvere, intonaco, cemento, ecc.). Eventuali residui di intonaco, malta o materiali simili devono essere rimossi con acqua prima di asciugare.
- I vapori aggressivi (ad esempio acido formico o acido acetico, ammoniaca, ammina o ammoniaca, aldeidi, fenoli, cloro, acido tannico ecc.), in connessione con piccole formazioni di condensa possono provocare una corrosione rapida della ferramenta.

to check for stability and wear. According to requirements, the fixing screws must be tightened and/or a number of parts must be adjusted. In addition, the following maintenance operations must be carried out at least once per year:

- *All hardware moving parts and blocking points must be lubricated;*
- *Do not use aggressive detergents, alcohol or other chemical products which might corrode the surfaces during cleaning, and which might damage the anti-corrosion protection of the hardware components;*
- *The hardware adjustment work, as well as any substitution of parts must be carried out by a specialized company;*
- *Whenever surface treatments are applied to windows and French windows - for example, staining or painting - it is necessary to isolate the fixings from this procedure, which must be protected from any impurities (paint/residues of paintwork)*

5.1 PRESERVATION OF THE SURFACE FINISH

Electrolytically applied zinc coatings are not subject to attack in a room under normal climatic conditions, as long as condensation is not formed on the hardware, or if it is dried rapidly.

In order permanently to preserve the quality of the hardware surface, and to avoid deterioration through corrosion, the following points must be complied with:

- *The attachment and/or sliding areas must be sufficiently ventilated, in particular during the construction phase, in order to avoid their being exposed to direct humidity or condensation. In all cases, measures should be adopted to avoid humidity condensing permanently in the sliding areas.*
- *The hardware must be kept devoid of deposits and dirt from construction materials (powders, plaster, cement, etc.). Any residues of plaster, mortar or similar materials, must be removed with water and then dried.*
- *Aggressive vapours (for example, formic or acetic acids, ammonia, amines, aldehydes, phenols, chlorides, tannic acid, etc.) in connection with small formations of condensation, which might provoke rapid corrosion of the fixings. For this reason, the evaporation of these substances in the vicinity of these windows must absolutely be avoided.*

- Per questo motivo, l'evaporazione di queste sostanze nelle vicinanze delle finestre deve essere assolutamente evitata.
- Inoltre non possono essere utilizzati composti di sigillatura acidi o di acido acetico o quelli con i suddetti contenuti, poiché sia il contatto diretto con il composto sigillante che la sua vaporizzazione possono attaccare la superficie della ferramenta
- L'infisso può essere pulito solo con detergenti delicati a pH neutro in forma diluita. In nessun caso possono essere utilizzati detergenti aggressivi, acidi o detergenti abrasivi i cui contenuti sono elencati nel precedente paragrafo.
- La presente Garanzia non è applicabile in caso di difetti sopravvenuti a seguito di danni da fuoco o altri eventi accidentali, utilizzo di spazzole e/o prodotti abrasivi, installazioni improprie, atti vandalici ed in ogni caso di non corretto utilizzo.
- Con riferimento ai prodotti semilavorati e/o non verniciati MASTER declina ogni responsabilità per eventuali anomalie che dovessero verificarsi a seguito di processi produttivi e/o modificativi del prodotto stesso, posti in essere da terzi successivamente alla consegna da parte di MASTER.
- Furthermore, acid or acetic acid sealing compounds, or those with the above-mentioned contents may not be used, given that both direct contact with the sealing compound or with its vapour may attack the surface of the fittings.
- The fittings may only be cleaned with gentle detergents with a neutral pH, in diluted form. Under no circumstances may aggressive detergents be used, nor acids or abrasive detergents whose contents include those listed in the preceding paragraph.
- This Guarantee is not applicable in the event of defects occasioned following damage by fire or other accidental events, the use of abrasive brushes and/or products, incorrect installation, acts of vandalism and, in any case, incorrect use.
- With reference to part completed and/or unpainted products, MASTER declines any responsibility for any anomalies which should occur following production and/or modification processes on the product itself, carried out by third parties after consignment by MASTER.

6. OBBLIGO DI EMETTERE INFORMAZIONI E ISTRUZIONI

La seguente documentazione deve essere trasmessa a rivenditori, intermediari, fabbricanti e utenti finali

- Documentazione tecnica
- Cataloghi di prodotto
- Istruzioni di montaggio
- Manuali d'uso e manutenzione

Accertandosi che quanto trasmesso sia aggiornato alle ultime revisioni dell'azienda.

L'insieme di questi materiali o di parte di essi (lì dove alcune schede non sono disponibili) verrà chiamato sinteticamente "informazioni sul prodotto".

Al fine di salvaguardare la funzione rilevante delle finestre e delle porte balcone:

- Gli ingegneri e i progettisti sono tenuti a richiedere e rispettare le "informazioni sul prodotto" dei produttori o dei concessionari autorizzati
- I rivenditori specializzati sono tenuti a rispettare le "informazioni sul prodotto" del produttore, ed in particolare a trasmetterle a concessionari e/o fabbricanti successivi e segnalare che sono obbligati a trasmetterle ai loro clienti.

6. OBLIGATION TO ISSUE INFORMATION AND INSTRUCTIONS

The following documentation must be forwarded to retailers, intermediaries, builders and end users

- *Technical documentation*
- *Product catalogues*
- *Assembly instructions*
- *User and maintenance manuals*

Ensuring that what is forwarded has been updated to the latest company amendment.

The whole of this material, or parts of it (should a few information sheets not be available) will be called, in brief, "information on the product".

In order to preserve the relevant functions of the balcony windows and doors:

- *Engineers and designers are required to request and comply with the "information on the product" from the manufacturers or authorized dealers*
- *Specialist retailers are required to respect the manufacturers' "information on the product" and, in particular, to forward it to dealers and/or subsequent manufacturers, and to notify them that they are obliged to forward them to their clients.*

LINEE GUIDA SU GARANZIA PRODOTTI E RESPONSABILITÀ

PRODUCT LIABILITY GUIDELINES

I produttori di infissi sono tenuti ad osservare le “informazioni sul prodotto” e in particolare a trasmettere le istruzioni di manutenzione e i manuali operativi ai costruttori e agli utenti finali.

7. UTILIZZO DI HARDWARE CORRELATI

Le variazioni possibili all'interno di singoli sistemi hardware devono essere trattate in base alle caratteristiche specifiche contenute nelle “informazioni sul prodotto”, dell'applicazione prevista, dell'uso improprio, delle prestazioni del prodotto, della manutenzione dei prodotti, degli obblighi informativi e di istruzione.

Manufacturers of windows and doors are required to observe the “information on the product” and in particular to forward the maintenance instructions and operational manuals to the builders and the end users.

7. USE OF CORRELATED HARDWARE

The possible variations within individual items of hardware must be treated on the basis of the specific characteristics contained in the “information on the product”, the foreseen application, improper use, the product performance, of the product maintenance, of the information and instruction obligations.

L

Indipendentemente dal peso della porta, per porte sottoposte ad un intenso utilizzo come nel caso di edifici aperti al pubblico, porte con chiudiporta o porte ad azionamento motorizzato il limite di impiego è limitato a H 3000 e L 1400 con l'utilizzo della terza o quarta cerniera (cerniera blu) come da diagramma.

Whatever the door weight, doors subject to heavy duty, such as public building, doors with closers or automatic doors have a limited range of application limited to H 3000 and L 1400 and must be fitted with an addition hinge (blue hinge) as in the diagram.

ART	PORTATA LOAD CAPACITY
8000X	100% = 120kg
8001X	100% = 120 kg
8002X	100% = 120 kg
8003X	100% = 100 kg
8004X	100% = 100 kg

- Esempio
1. Dim. LxH (WxH) 1200x2200 = 100% Portata 2 cerniere (Load Capacity 2 hinges)
 2. Dim. LxH (WxH) 1600x2200 = 100% Portata 3 cerniere (Load Capacity 3 hinges)
 3. Dim. LxH (WxH) 1400x3300 = 100% Portata 4 cerniere (Load Capacity 4 hinges)

Hinge body, carter, counterplate, thickness and template in extruded aluminium. Centering pins and fixing set-screws in AISI 303 stainless steel. Fixing screws and adjustment set-screw in galvanized steel. Bushes in zamak. Bushes in Derlyn. Hinge plugs in plastic (Nylon Pa6). Spring in harmonic galvanized steel.

Corps de manoeuvre, carter, contreplaque, cale set gabarit en aluminium extrudé. Pivots de centrage et grains de fixation en Acier Inox AISI 303. Vis de fixation et grain de réglage en Acier Zingué. Bagues en zamak. Bagues en Derlyn. Bouchons paumelle en matériau plastique (Nylon Pa6). Ressort en acier harmonique zingué.

Cuerpo de la bisagra, carter, contraplaca, espesor y plantilla en aluminio extruido. Pernios de centrado y prisioneros de fijación en acero inoxidable AISI 303. Tornillos de fijación y prisionero de regulación en acero cincado. Casquillos en Derlyn. Tapones de la bisagra en material plástico (Nylon Pa6). Muelle en acero armónico cincado.

L

Indipendentemente dal peso della porta, per porte sottoposte ad un intenso utilizzo come nel caso di edifici aperti al pubblico, porte con chiudiporta o porte ad azionamento motorizzato il limite di impiego è limitato a H 3000 e L 1400 con l'utilizzo della terza o quarta cerniera (cerniera blu) come da diagramma.

Whatever the door weight, doors subject to heavy duty, such as public building, doors with closers or automatic doors have a limited range of application limited to H 3000 and L 1400 and must be fitted with an addition hinge (blue hinge) as in the diagram.

- Esempio
1. Dim. LxH (WxH) 1200x2200 = 100% Portata 2 cerniere (Load Capacity 2 hinges)
 2. Dim. LxH (WxH) 1600x2200 = 100% Portata 3 cerniere (Load Capacity 3 hinges)
 3. Dim. LxH (WxH) 1400x3300 = 100% Portata 4 cerniere (Load Capacity 4 hinges)

I diagrammi hanno validità per spessore profili | Load charts is for profiles thickness) ≥ a 1,7 mm

Indipendentemente dal peso della porta, per porte sottoposte ad un intenso utilizzo come nel caso di edifici aperti al pubblico, porte con chiudiporta o porte ad azionamento motorizzato il limite di impiego è limitato a H 2400 e L 1000 con l'utilizzo della terza o quarta cerniera (cerniera blu) come da diagramma.

Whatever the door weight, doors subject to heavy duty, such as public building, doors with closers or automatic doors have a limited range of application limited to H 2400 and L 1000 and must be fitted with an addition hinge (blue hinge) as in the diagram.

- Esempio
1. Dim. LxH (WxH) 1200x3000 = 100% Portata 2 cerniere (Load Capacity 2 hinges)
 2. Dim. LxH (WxH) 1600x2200 = 100% Portata 3 cerniere (Load Capacity 3 hinges)
 3. Dim. LxH (WxH) 1400x3000 = 100% Portata 4 cerniere (Load Capacity 4 hinges)

Fixed pull handle (for outside) art. 6314.

Réalisées principalement en zamak, disponibles en couleurs différentes grâce au système de laquage spécifique (thermolaquage avec poudre, identique au profilé).
Poignée de tirage avec dispositif de manœuvre (pour intérieurs) art. 6312.
Poignée de tirage fixe (pour extérieurs) art. 6314.

Fabricadas principalmente en zamac, disponibles en diferentes colores gracias al particular sistema de laqueado (termolaqueado a polvo, idéntico al perfil).
Manilla tiradora con dispositivo de maniobra (para interiores) art. 6312.
Manilla tiradora fija (para exteriores) art. 6314.
