LED blinking round the clock (24/24h).

Indicatore luminoso a LED intermittente attivo 24h/24h.

(((ALARM)))

Alarm

Integrated alarm system active round the clock (24/24h).

Sirena allarme

Sistema di allarme integrato attivo 24h/24h.

Relay contact

Relay to connect eventually to a further centralized alarm system.

Contatto relé

Per attivare eventuale allarme centralizzato. **OPTIONAL: attiva in contemporanea alla sirena un blocco aste.**

Battery 9V

Battery operated.

Batteria 9V

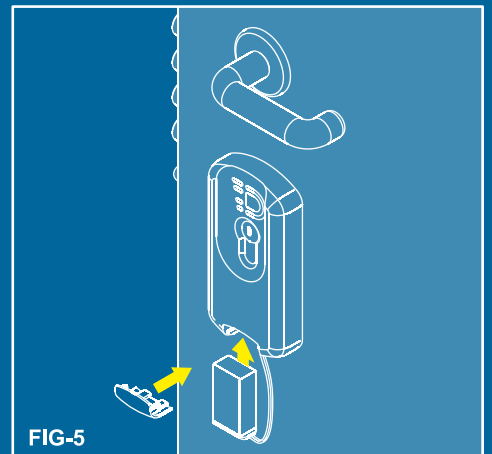

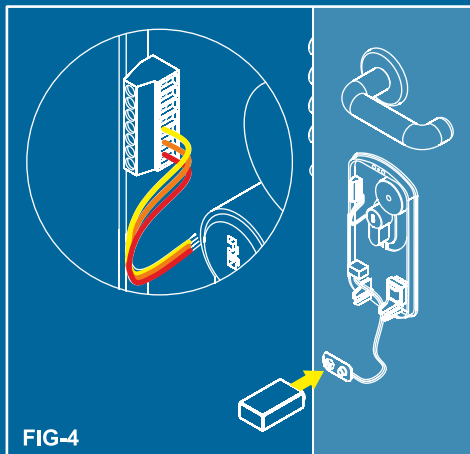

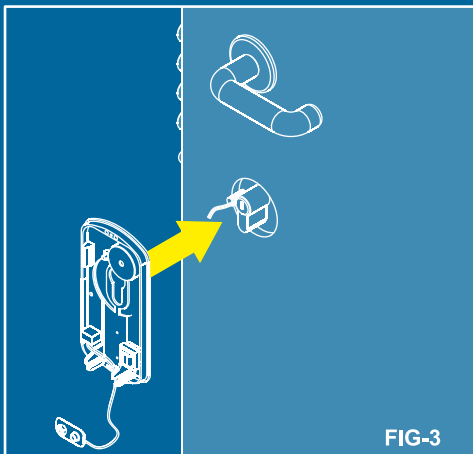

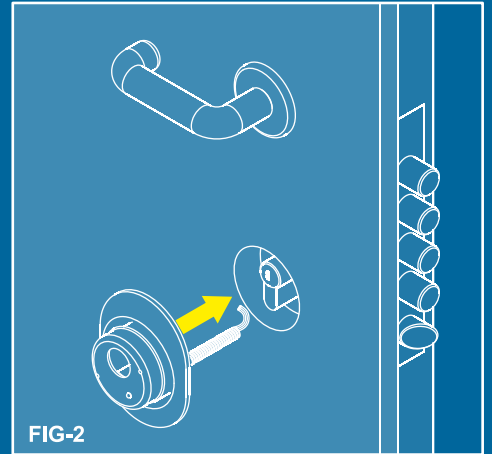

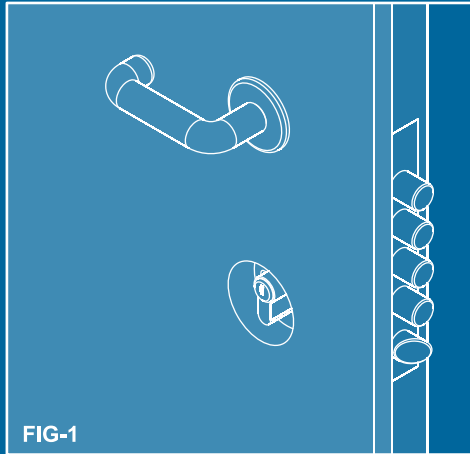

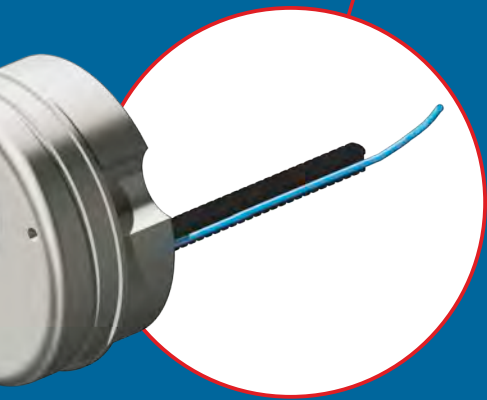

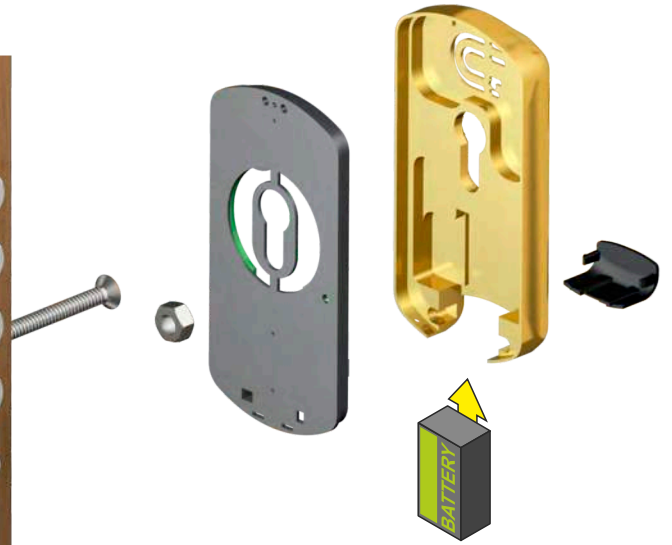

Alimentazione.

Alarm system easy to fit on all locks. The alarm goes off only when the escutcheon or the protector are tampered.

Sistema di allarme di facile montaggio applicabile a qualsiasi porta. La sirena si attiva quando la placca decorativa o la protezione è sottoposta a deformazione o strappo.

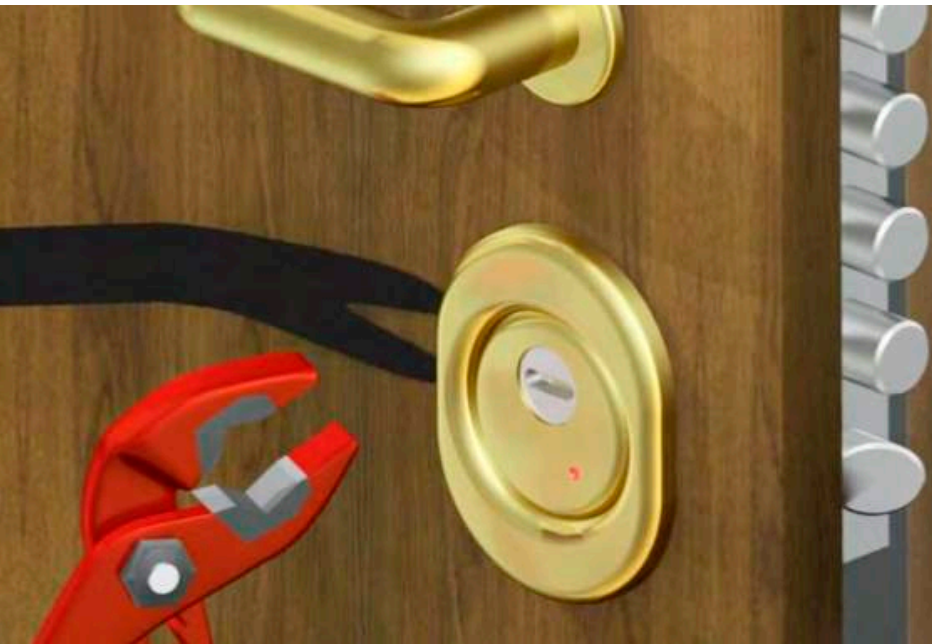

EL200N x serrature standard
 EL300N x atra
 EL200NCR x CR (38 DIN STND)

Contro i tentativi di effrazione (e solo in questo caso) attivazione di un allarme sonoro e del blocco della serratura.

Against burglaries, when the door is under attack (and only in this case), the systems activates the alarm siren and blocks off the lock bars.

SISTEMA DISEC CHE ATTIVA L'ALLARME, ED EVENTUALE DISPOSITIVO DI BLOCCO DELLE ASTE, AL TENTATIVO DI EFFRAZIONE. PRIMA CHE LA PORTA VENGA APERTA.

ADATTA PER SERRATURE
 x ATRA
 x CISA
 x CR
 x ESETY
 x MOTTURA
 x MULTILOCK
 x SECUREMME

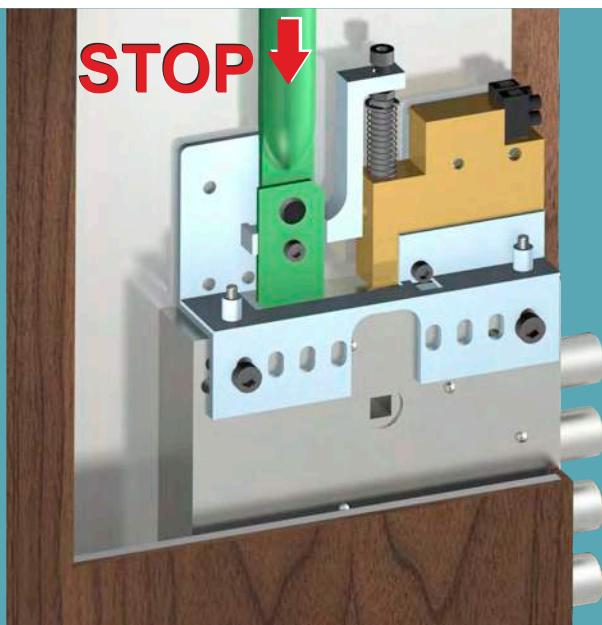

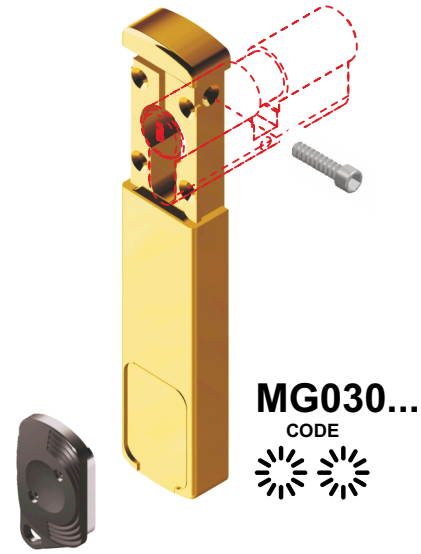

Il montaggio del dispositivo di blocco della serratura è molto semplice e si adatta facilmente alle serrature più comuni sul mercato utilizzando i fori pre-esistenti. Il blocco delle aste della serratura interviene solo in caso di effrazione e solo in questo caso eliminando così i falsi allarmi e blocchi accidentali.

Installing the bar locking device is simple; it is easily adaptable to most common locks and it can be fitted directly in the existing screw holes.

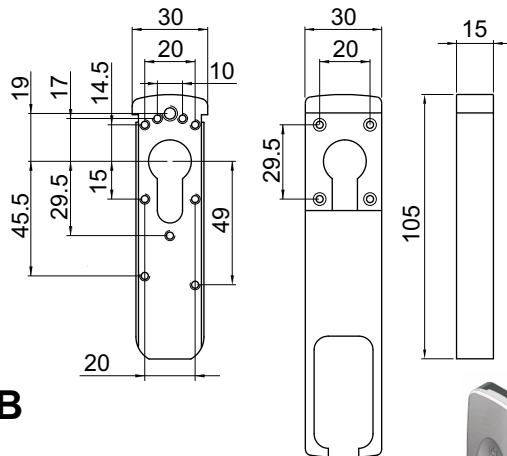

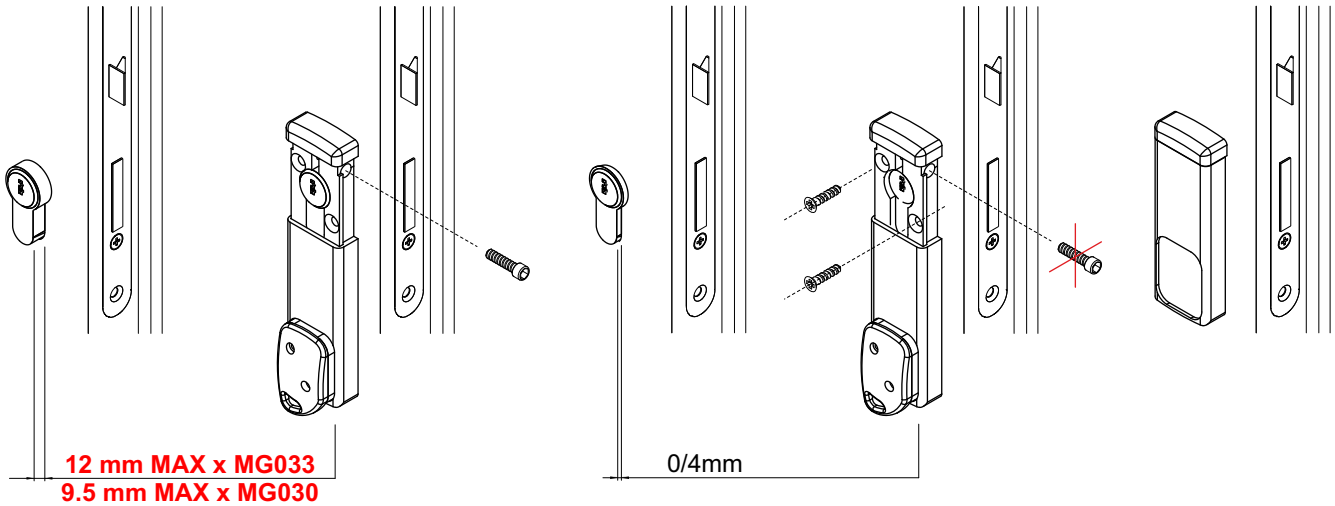

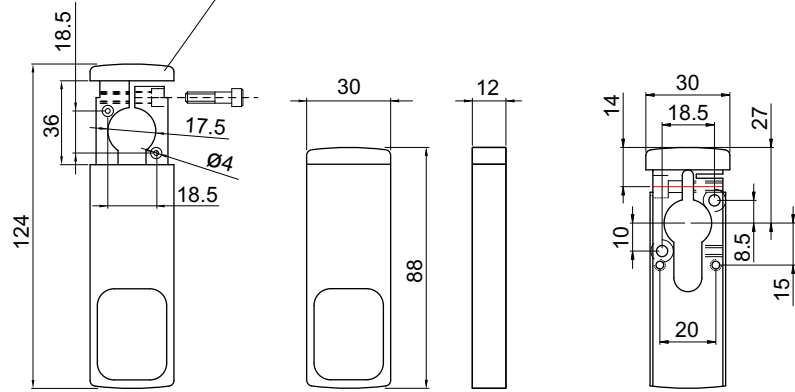

The locking feature is activated only when the cylinder protector is damaged; this avoids false alarms to be involuntarily triggered.

SP01 code

SP01

Superblock la barra snodabile di sicurezza (destro & sinistro)

- A) Pos. 1:** barra orizzontale dritta - mantiene gli scuri saldamente bloccati.
- B) Pos. 2:** barra girata di 180° Spingendo una delle ante verso l'esterno il braccio si piega e permette la parziale apertura delle ante. Piegandosi il braccio si blocca e mantiene lo scuro in sicurezza (non apribile dall'esterno) nonostante la semi-apertura. Per poterlo richiudere è necessario riportarlo in posizione parallela (perciò con ante chiuse).
- C) Pos. 3:** barra verticale neutra; in questa posizione la barra rimane bloccata verticalmente in modo da non interferire con le ante.

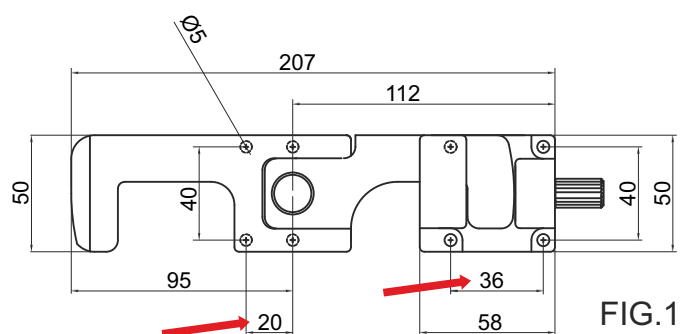

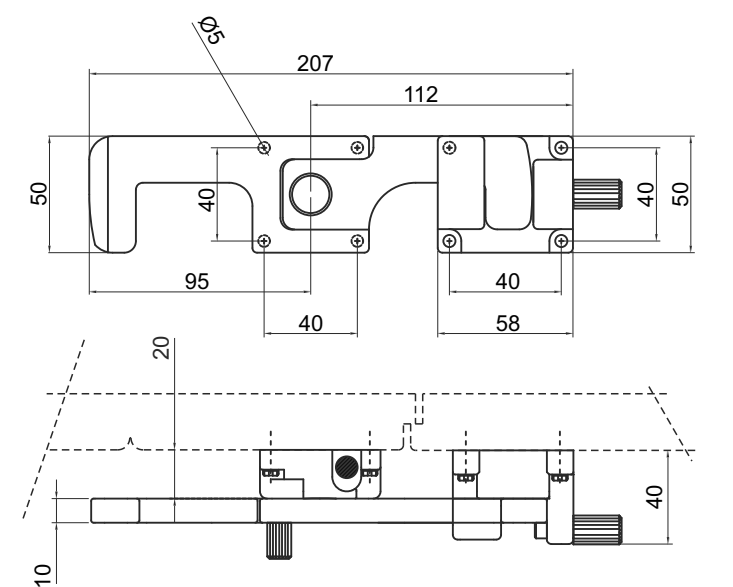

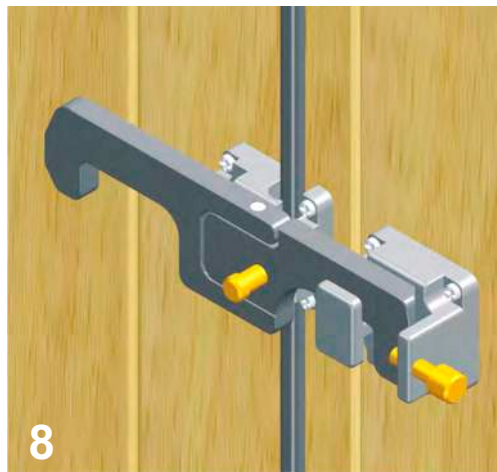

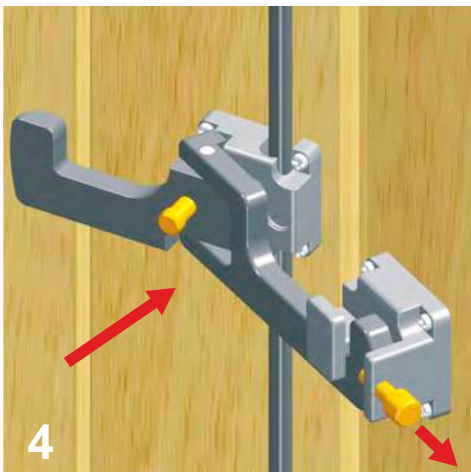

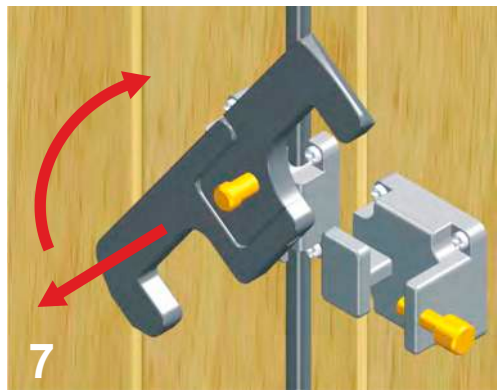

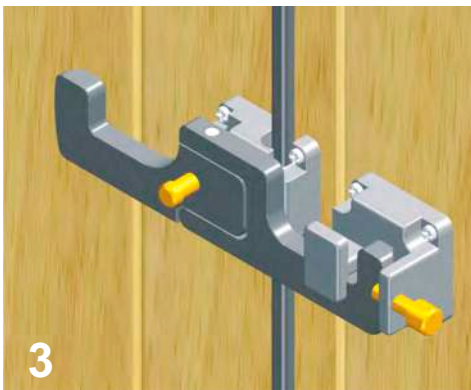

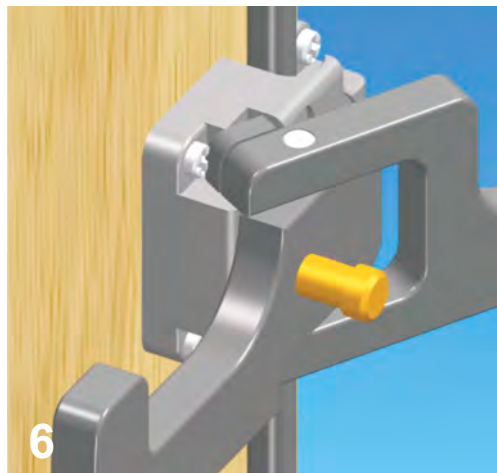

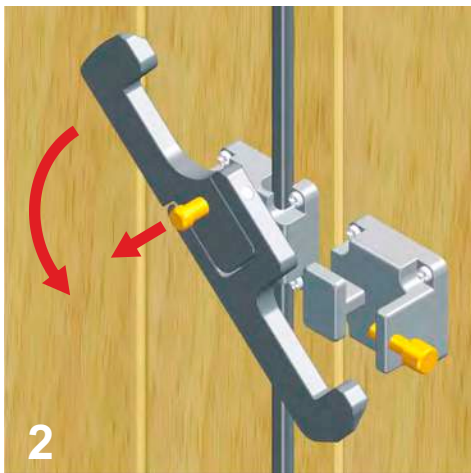

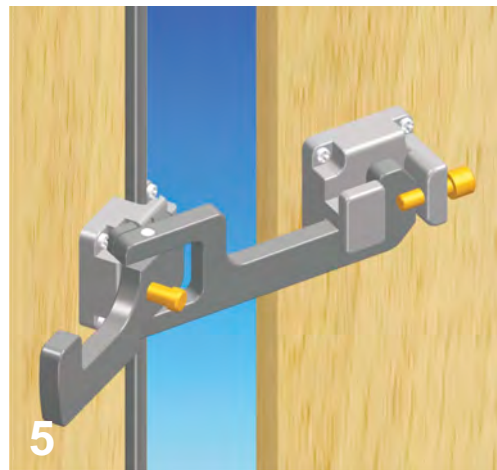

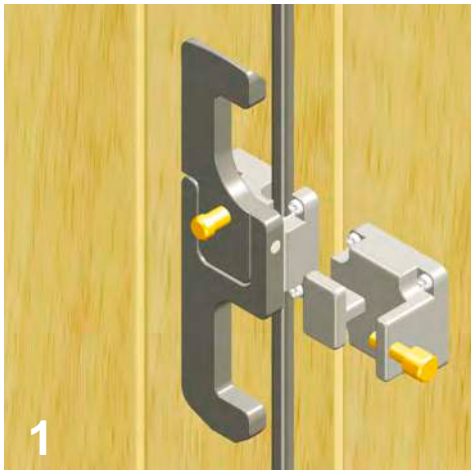

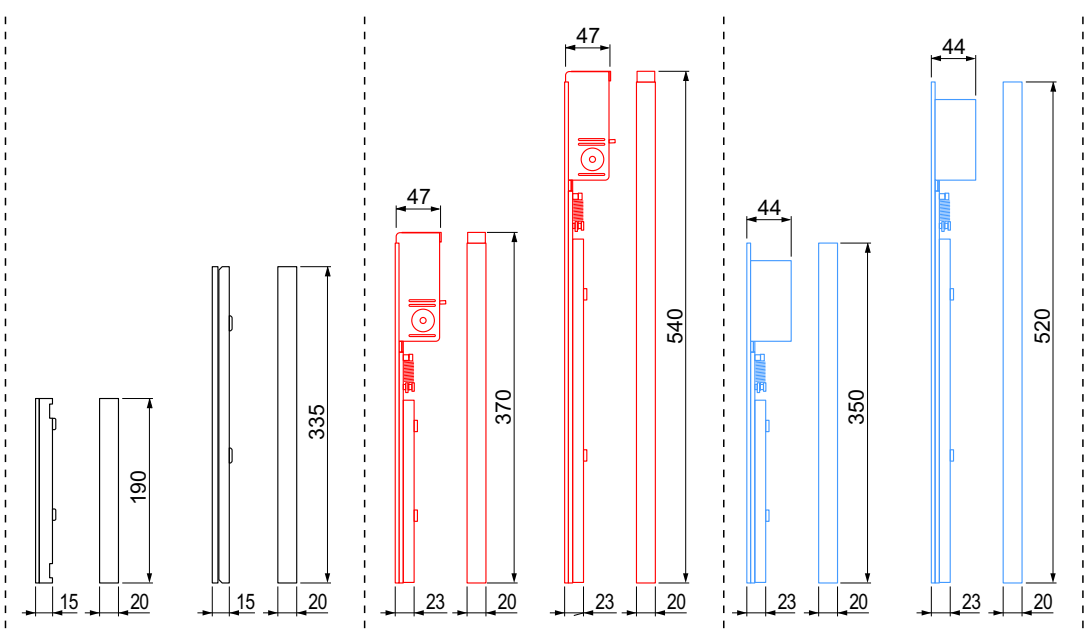

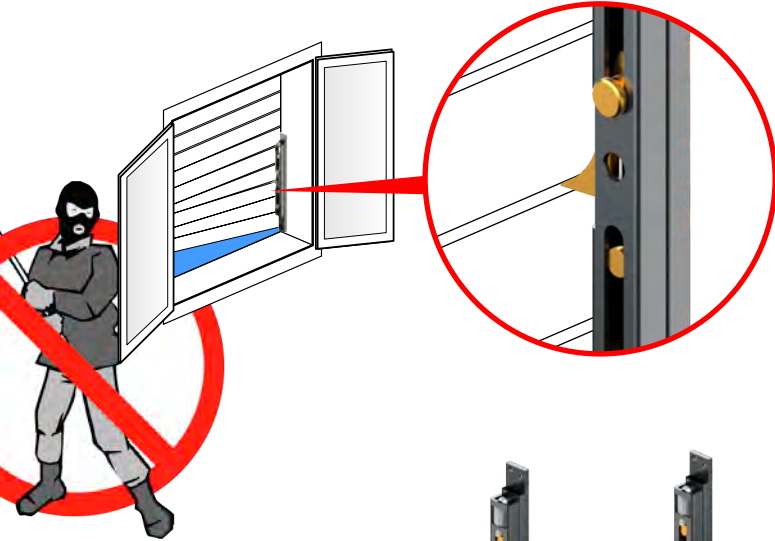

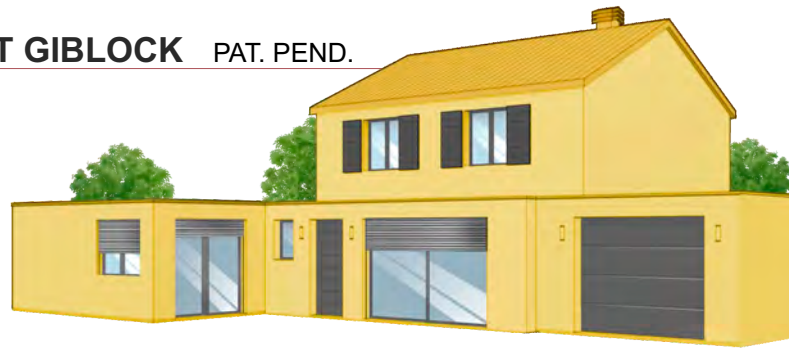

FIG.1

- Corpo in anticorodal e ossidazione anodica nera.
- Perni e pomoli in ottone.
- Molla in acciaio inox.
- Dotazione con 8 viti e 2 spessori da 1mm per allineare le due parti in caso di differenza di altezza.
- Spine di rotazione in acciaio temperato e rettificato.
- Il perno centrale di rotazione è in ottone e la sua sede è ovale, in questo modo può spostarsi assialmente per compensare giochi sugli scuri.
- Per quanto riguarda le persiane è in via di sviluppo un semplice blocco a combinazione che permette una ulteriore maggiore sicurezza. La combinazione può essere scelta dall'utente finale.
- Sempre nella versione per persiane la posizione delle viti per il bloccaggio può avere disposizione diversa vedi fig. 1.

OPTIONAL:

Nell'asta basculante può essere annegata una spina in acciaio temperato al fine di evitare il taglio.

DISPONIBILE SU TUTTI I MODELLI

TUTTE LE PROTEZIONI SI ATTIVANO E SI DISATTIVANO AUTOMATICAMENTE ATTRAVERSO LA PROSSIMITA' DEL DISPOSITIVO DI IDENTIFICAZIONE DISEC iD

ALLARME ANTI EFFRAZIONE

AVVISO DI ALLARME TRAMITE SMS

DISPONIBILE solo per i modelli MG850 / MG850 S

disponibile solo se abbinato al GSM/GPS TRACKER non è disponibile separatamente

IN ASSENZA DEL PROPRIETARIO

Rileva costantemente la posizione del veicolo.

Crea un recinto virtuale, se il veicolo oltrepassa tale recinto viene inviato via sms un link di Googlemap con le coordinate del veicolo stesso. E' possibile vedere sul proprio smartphone la posizione del veicolo. Attiva una linea relè NA o NC. I telefoni abilitati possono in qualsiasi momento chiedere la posizione del veicolo inviando un sms; il **GSM/GPS TRACKER** risponderà con la posizione.

IN PRESENZA DEL PROPRIETARIO

Viene rilevata la chiave di prossimità **DISEC iD**, disattivata la protezione del veicolo, accesa una linea relè. E' possibile in qualsiasi momento chiedere la posizione del veicolo inviando un sms; il **GSM/GPS TRACKER** risponderà con il link.

Disponibile su tutti i modelli.

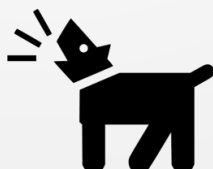

IN ASSENZA DEL PROPRIETARIO

Rileva se il portellone del furgone viene colpito. Viene inviato un sms di allarme ed un link di Googlemap con le coordinate del veicolo stesso. E' possibile vedere sul proprio smartphone la posizione del veicolo.

IN PRESENZA DEL PROPRIETARIO

Viene rilevata la chiave di prossimità **DISEC iD**, disattivata la protezione del veicolo, accesa una linea relè.

Disponibile solo per i modelli MG850/MG850 S. Disponibile solo se abbinato al GSM/GPS TRACKER. Non è disponibile separatamente.

TI AVVISA IMMEDIATAMENTE PRIMA CHE SIA TROPPO TARDI!

LOCALIZZAZIONE GPS
GSM/GPS TRACKER

ALLARME ANTI EFFRAZIONE

disponibile solo se abbinato al GSM/GPS TRACKER

 MG850 MG850 S	 TRC01 GSM/GPS TRACKER	 EFR01 ALLARME TENTATIVO EFFRAZIONE
 MG845	 TRC01 GSM/GPS TRACKER	NON DISPONIBILE
 MG840	 TRC01 GSM/GPS TRACKER	NON DISPONIBILE
 RIF030	 TRC01 GSM/GPS TRACKER	NON DISPONIBILE

Il **GSM/GPS TRACKER** (TRC01) può essere installato su qualsiasi veicolo che debba essere controllato e messo in sicurezza.

Aggiungendo come opzione la **SCHEDA ANTI EFFRAZIONE** per l'MG850, il GSM/GPS TRACKER rileverà shock e colpi contro il catenaccio, verrà inviato un sms personalizzato al proprietario con la posizione GPS.

Si alimenta collegandolo direttamente alla batteria del veicolo, o attraverso una presa accendi sigari (si consiglia di collegarlo direttamente e posizionarlo nel cruscotto o in una posizione nascosta).

Un sistema Bluetooth abbinato alla chiave di prossimità "**DISEC iD**" permette al dispositivo di sapere se il proprietario del veicolo è nelle vicinanze. In caso di assenza del proprietario attiva la protezione del veicolo e la disattiva in caso di presenza; senza doversi così preoccupare di accendere o spegnere il dispositivo manualmente.

Al suo interno è presente un modulo GSM con SIMCARD, che permette di comunicare con i numeri di cellulare registrati e abilitati.

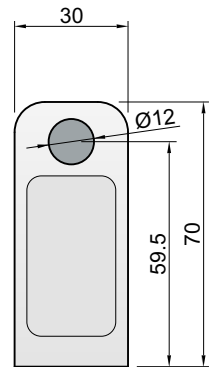

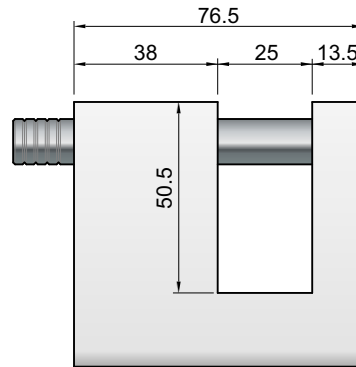

Due relè e altre 5 linee ausiliarie permettono di cablare via cavo il **GSM/GPS TRACKER**; le condizioni di allarme o di presenza del proprietario possono essere abbinare alle linee relè per spegnere o accendere parti del veicolo, ad esempio accendere delle luci di cortesia oppure far suonare un'allarme o altro.
